

In response to TANF reauthorization, the Department created a new data mart, the Federal Reporting Database (FReD) and developed Web Intelligence (WebI) reports for monitoring work participation requirements. Details and descriptions of these WebI reports were included in Operations Memo 8-15 dated March 31, 2008 and can be found at (<http://www.dhfs.wisconsin.gov/em/ops-memos/2008/pdf/08-15.pdf>).

The following FReD WebI reports now include Two-Parent rate information:

FReD Report #01A - Work Participation Detail Report

FReD Report #01 - Work Participation Rates

FReD Report #02 - Federal Fiscal Year Work Participation Rates

Report descriptions can be seen by clicking on **View Details** when the FReD Reports page in WebI is accessed.
